

To Whom it may concern - Please discontinue and reject any and all attempts to limit or block the services provided by my satellite radio provider. I choose to subscribe and pay for this service and find it a good supplement to the free and public radio in my local area. I continue to tune in to many of my local stations for entertainment, information, news, etc... , but I strongly feel that it is still my CHOICE to CHOOSE AND PAY FOR a service offered by an excellent provider such as XM Radio. Thank you for accepting and considering a taxpayers opinion , and I certainly hope that common sense will prevail on this issue.
